Let's Start!

Oops! There is no Internet connection! Do you know what to do?

PAGE NOT FOUND !

Learning Outcome

Explain about technology and technical problems in communicative situations.

Ask your partner:

- How much do you rely on the Internet for your daily tasks and needs?
- Do you think people have become too dependent on technology in their daily life?
- Would they know what to do if the Internet went down?

Can Do Statements

- I can talk about technology.
- I can ask for help or advice.
- I can discuss how to deal with problems.

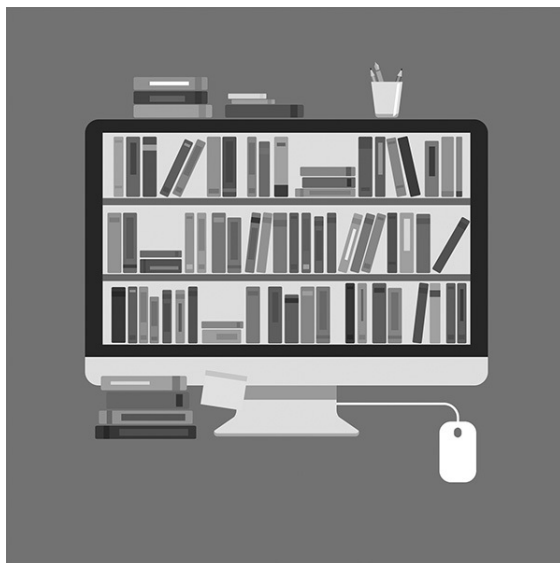

Let's Explore!

Sally gives a few **pointers*** on how to find the best information online.

* "Pointers" are useful tips.

Instructions: Read the text aloud.

Do you know where to go when you need a reliable online source? The process of finding content has changed considerably in the age of the Internet. We must also recognize that despite the wealth of information available, it's not a comprehensive library. Using trustworthy search engines may help you find what you really need.

You should bear in mind the quality control of what is posted online. Do you know how to make sure that what you read is accurate? Do you know what to look for when you want to check a website's accuracy? Legitimate sites should have someone overseeing the content, or at least have experts review the material before it is uploaded on the Internet.

You could also check any links posted on the site to see if they are relevant and updated. Always make sure that there are no broken links. This is something that attests to poor site maintenance, and you might want to avoid this kind of website. In addition, a website that contains spelling or grammatical errors or inaccurate content is unlikely to be a source you would want to use.

Let's Practice!

Here are a few words to remember about the Internet.

Instructions: Find the words in the word search below.

Words

1. Link
2. Updated
3. Maintenance
4. Comprehensive
5. Search engine
6. Quality control

I	O	B	U	E	D	E	M	D	N	Y	V	V	D	Y	L	D	P	K	I
X	U	A	N	D	D	V	Q	A	G	D	U	P	O	F	T	W	T	A	M
O	P	I	Q	Q	U	A	L	I	T	Y	C	O	N	T	R	O	L	G	Q
H	D	A	F	Y	B	W	Z	Y	W	K	E	U	L	K	R	D	V	B	P
O	A	Y	O	F	C	W	Y	F	S	A	D	E	Q	T	L	C	K	W	O
Q	T	X	V	Z	M	M	A	I	N	T	E	N	A	N	C	E	L	H	U
V	E	Z	Q	C	F	H	L	R	R	B	V	Q	U	Z	X	W	W	P	B
W	D	W	L	D	N	G	D	D	L	Y	S	U	A	B	R	C	Q	D	G
I	O	N	V	S	K	V	D	R	I	V	Q	J	N	R	V	O	T	Q	U
N	M	T	V	A	S	V	N	F	N	I	V	D	K	V	I	X	H	V	D
Y	E	P	M	Q	Q	P	O	L	K	I	B	U	H	R	I	X	X	M	O
B	C	O	M	P	R	E	H	E	N	S	I	V	E	P	G	I	P	J	Y
G	X	F	C	Q	L	O	Q	V	O	G	E	S	Y	N	K	H	D	O	E
S	B	E	N	I	G	N	E	H	C	R	A	E	S	O	I	G	J	V	N
E	R	W	J	D	O	U	M	V	U	Q	C	Z	R	M	S	G	G	G	F

Let's Practice!

Sally offers a few final suggestions.

Instructions: Proofread the sentences below and circle the mistakes you find.

1. Using trustworthy search engines won't help you find what you really need.
2. You must bear in mind the quality control of what is posted online.
3. Legitimate sites might want someone overseeing the content.
4. You would also check any links posted on the site to see if they are relevant and updated.
5. You must make sure that there are no broken links.
6. You must avoid this kind of website.

Extension Activity

Write a list of technological gadgets people can't live without.

Instructions: Complete the following steps. Fill in the Self-Assessment.

- Think of 5 kinds of electronic devices or gadgets that people use every day.
- Write a short description for each of them. Explain what they do and if they are useful to complete everyday tasks.
- Write your opinion on these gadgets. Say if you think they are useful or if people are too dependent on them.
- Read your description aloud to your partner.
- Ask questions about your partner's description.

Self-Assessment

Yes

No

I talk about technology and gadgets.

☐ ☐

I ask questions about technological problems.

☐ ☐

I identify different uses of technology in everyday life.

☐ ☐

Target Words

- quality control** (noun): a process of testing a product to maintain high standards
e.g. You should bear in mind the quality control of what is posted online.
- to oversee** (verb): to be responsible for; to be in charge of
e.g. Legitimate sites should have someone overseeing the content.
- link** (noun): a word or phrase you can click to visit a specific webpage
e.g. Always make sure that there are no broken links.
- updated** (adjective): being up-to-date
e.g. You should see if the links are relevant and updated.
- maintenance** (noun): the process of keeping something functional and in good condition
e.g. Broken links are proof of a website's poor maintenance.
- wealth** (noun): large amount; abundance
e.g. Despite the wealth of information available, the Internet is not always a reliable library.
- comprehensive** (adjective): complete; including nearly all elements of something
e.g. Despite the wealth of information available, the Internet is not a comprehensive library.
- search engine** (noun): an online tool that allows you to search for information
e.g. Using trustworthy search engines may help you find what you really need.

Learning Points

Asking for Help or Advice

There are several ways to ask for help in English. You can use polite and casual language to do this. Let's look at one particular structure for asking for help.

You can use the structure:

Can/ Could/ Do + you + verb + me (optional) + question word

Can you show me how this computer works?

Could you tell me where I can find reliable information?

You can also suggest advice by using the same structure:

Do you know where to go online for the best information?

Do you know what to look for when you check a website's accuracy?

These questions suggest solutions related to technical issues. They are often used in user manuals or troubleshooting booklets.

Can/Could/Do	you	verb	(me)	Question word
Could	you	tell	me	what time it is, please?
Can	you	show	me	how to use this?
Do	you	know		how to make sure it's accurate?
Do	you	know		where to look for reliable information online?

You can also use the structure

Let me show/tell + you + question word

Let me show you how to make this computer work.

Let me show you where you can find reliable information.

Let me tell you what you should do.

Learning Points

Discussing How to Deal With Problems

One way to discuss how to deal with problems is to say what you would do if you were in someone else's situation. It is particularly useful if you want to discuss a complicated technical problem.

If you write an article about solving issues, you can use modals like *would*, *should* or *could* to suggest solutions and offer assistance.

I would ...

I wouldn't ...

You could ...

You can also use *must*, *might want to* or Imperatives to strongly suggest a solution.

You might want to ...

You must ...

Always check ...

These are examples of Sally giving suggestions about how to deal with technical problems.

Examples:

- *Using trustworthy search engines may help you find what you really need.*
- *You should bear in mind the quality control of what is posted online.*
- *You could also check any links posted on the site to see if they are relevant and updated.*
- *Always make sure that there are no broken links.*
- *You might want to avoid this kind of website.*
- *An unreliable website is unlikely to be a source you would want to use.*
